

# MUCH MORE THAN A LEARNING MANAGEMENT SYSTEM

**docēbō** [doh-cheh-boh]

1. Latin for "I will teach"
2. The leading learning ecosystem for companies and their employees, partners and customers

## DOCEBO IS A LEARNER-CENTRIC PLATFORM

Docebo is designed first and foremost to help you increase learning engagement for better learning outcomes and improved organizational performance. We believe an LMS should support the many ways people learn, rather than dictating how they learn. That's why we combine formal learning approaches with informal, social and experiential learning all within one platform, supporting a 70:20:10 framework.
